To whom it may concern,

Re: Letter of recommendation

Prime Waterproofing & Roofing, Inc. is a roofing and waterproofing vendor I have used since 2004. I use Prime's services in the Los Angeles area and currently use their service in the San Diego area.

Prime has completed small leak repairs to major roofing and waterproofing projects all over Southern California with success.

Prime looks at our projects and offers affordable solutions, never trying to sell more than what is needed. Work crews are clean, polite and provide a consistently good quality of work. The pricing is competitive and projects are completed in a reasonable time frame.

We have not had any serious complaints or difficulties in over 100 projects we have given to Prime. We would recommend them to any other company wanting to use their services.

Sincerely yours,

A handwritten signature in blue ink that reads "Gina St. Aubin".
